Projects

The Commerce
(Next JS, Redux, Appwrite)

 https://the-commerce-ten.vercel.app

Key Features:
- Customizable profile page (Updable Avatar, Email, Password etc.)
- Authentication, database and storage management using Appwrite.
- Search Engine optimization (sitemap, robots, metadata, etc.)
- Implemented server-side rendering (SSR) for fast performance, improving page load times by 50%
- Managing global state using Redux Toolkit

Chat application
(Express, MongoDB, EJS)

 https://express-chat-app-pi.vercel.app

Key Features:
- Login and Signup using JWT
- Validation using Express Validator
- Real-time messaging with Socket.io
- File upload using Multer

Certificate Generator
(Next JS)

 https://certificate-generator.vercel.app

Key Features:
- Dynamic text insertion
- QR code access
- Remote access from anywhere

Skills

MERN	DSA	React Native	Git/Github
TypeScript	React	Next JS	JavaScript
Prisma	Java	SQL	Node	Tailwind

Education

Diploma in Computer Science and Technology
(Feni Polytechnic Institute)

 ongoing

Secondary School Certificate in Science
(Fazilpur High School)

 Jan 2016 - Feb 2021

GPA- 4.78

Primary School Certificate
(Fazilpur Kindergarten)

 Jan 2008 - Dec

GPA- 4.83

Passion

Mentoring
I enjoy helping others in their learning journey and guiding them toward meaningful knowledge.

Problem Solving
I enjoy the process of solving problems when they arise. Sometimes I spend hours solving a single problem.

Adaptability
If I don't know about a technology or concept, I love learning about it. If I can't find resources, I ask ChatGPT or search on Google.
